SECTION SUMMARY

1 - Introduction and safety measures
2 - General information, controls and instruments
3 - Field operation
4 - Lubrication and Maintenance
5 - Troubleshooting
6 - Vehicle storage
7 - Accessories
8 - Specifications and Data
9 - Delivery report
10 - Alphabetical Index
TO THE OWNER

This manual contains information concerning the adjustment and maintenance of your new equipment. You have purchased a dependable machine, but only by proper care and operation can you expect to receive the performance and long service built into this equipment. Please have all operators read this manual carefully and keep it available for ready reference.

Your CASE IH dealer will instruct you in the general operation of your new equipment. (Refer to the “Delivery Report” at the back of this manual.) Your dealer’s staff of factory-trained service technicians will be glad to answer any questions that may arise regarding the operation of your machine. CASE IH Max Service is also available. Call 1-877-4-CASEIH (1-877-422-7344) or email maxservice.na@cnh.com.

Your CASE IH dealer carries a complete line of genuine CASE IH service parts. These parts are manufactured and carefully inspected to insure high quality and accurate fitting of any necessary replacement parts. Be prepared to give your dealer the model and product identification number of your new equipment when ordering parts. Locate these numbers now and record them below. Refer to the “General Information” section of this manual for the location of the model and product identification numbers of your machine.

PLEASE RECORD THE FOLLOWING INFORMATION

Model ________________________________

Product Identification Number (PIN) ________________________________

Date Purchased ________________________________

Header Width (As Applicable) ________________________________

Engine Model (As Applicable) ________________________________

Engine PIN (As Applicable) ________________________________

This is the safety alert symbol. It is used with and without signal words to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible death or injury.

WARNING

Illustrations in this manual may show protective shielding open or removed to better illustrate a particular feature or adjustment. Replace all shields before operating the machine. Failure to comply could result in death or serious injury.

IMPROVEMENTS

CNH America LLC is continually striving to improve its products. We reserve the right to make improvements or changes when it becomes practical and possible to do so, without incurring any obligation to make changes or additions to the equipment sold previously.
CONTENTS

SECTION 1
General Information and Safety ................................................................. 1-1
Product identification ............................................................................. 1-2
Ecology and the Environment ................................................................. 1-4
Always work safely ................................................................................ 1-5
Working safely ....................................................................................... 1-6
Safety decals .......................................................................................... 1-12
Guards and safety covers ..................................................................... 1-16
Tractor noise level information sheet .................................................. 1-18
Tractors main components .................................................................... 1-19

SECTION 2
General notes, controls and instruments ............................................... 2-1
Analog control panel ............................................................................. 2-2
Light control lever ................................................................................ 2-9
Operating controls ............................................................................... 2-10
Cab ........................................................................................................ 2-20
Transmission (8 X 8) 18.64/24.35 mph (30/40 km/h) ............................ 2-30, 2-31
Transmission (12 X 12) 18.64/24.35 mph (30/40 km/h) ....................... 2-34, 2-35
Transmission (20 X 20) 18.64/24.35 mph (30/40 km/h) ....................... 2-40, 2-41

SECTION 3
Field operation ....................................................................................... 3-1
Starting and stopping ........................................................................... 3-2
Brakes .................................................................................................... 3-6
