ORIGINAL SPARE PARTS

OUR LIFTING PLATFORMS MUST ONLY BE MAINTAINED USING ORIGINAL SPARE PARTS.

IF YOU AUTHORISE THE USE OF NON-ORIGINAL SPARE PARTS,

YOU RISK

- Legal assumption of responsibility in the event of an accident
- Technically, to cause operating faults or reduce the operating life of your equipment..

The use of counterfeit parts or components not approved by the manufacturer can invalidate the guarantee and lead to the manufacturer withdrawing the Certificate of Conformity.

BY USING ONLY ORIGINAL SPARE PARTS DURING MAINTENANCE WORK

YOU PROTECT YOURSELF LEGALLY

- Any user taking supplies from elsewhere does so at his own risk.
 - Any user who modifies the platform or has the platform modified by a servicing company must bear in mind that he is thereby introducing new equipment on the market and is therefore responsible for it.
 - Any user who copies original parts or has them copied exposes himself to legal risks.
 - The Declaration of Conformity only commits the manufacturer regarding parts selected and produced under his control.
- The practical maintenance conditions are established by the manufacturer. The manufacturer accepts no liability if the user does not observe these conditions.

YOU BENEFIT FROM EXPERTISE

THE MANUFACTURER PROVIDES THE USER WITH THE BENEFIT OF:

- His own skills and knowledge.
- A guarantee of the quality of the work conducted.
- Original spare parts.
- Assistance in preventive maintenance.
- Effective diagnostics.
- Improvements based on experience.
- Training for the operating personnel.
- Only the manufacturer knows the design of the lifting platform in detail and therefore has the best technical capabilities to ensure its maintenance.

**ORIGINAL SPARE PARTS ARE ONLY DISTRIBUTED BY MANITOU
AND ITS DEALER NETWORK**

You can obtain the list of dealers by telephoning the Spare Parts department :
