Tigercat 1165 HARVESTER

INTRODUCTION

An Operator's Manual, Service Manual, and Parts Catalog are made available by Tigercat to assist the dealer, customer, and operator in becoming familiar with the features of the 1165 Harvester.

SERIAL NUMBERS:

11650101 – 11650500

The 1165 Harvester is designed for harvesting trees, at-the-stump processing, or roadside processing applications in thinning, selective felling, and clear felling applications in plantations and natural stands.

The Operator's Manual provides the operator with techniques for proper and safe operation of the 1165 Harvester. There is also important information regarding the safe operation of the attachment (if equipped). The Service Manual contains safety and servicing procedures and a preventive maintenance schedule to ensure optimum machine performance.

Section 1 in both the Operator's Manual and the Service Manual contains safety information that must be followed. Throughout the rest of the manuals, DANGER, WARNING and CAUTION notices are displayed where necessary, drawing attention to possible hazards when performing certain procedures.

Only trained personnel are allowed to operate or work on the machine.

The information contained in this manual is current at time of printing. Improvements to the machine are ongoing and may not be covered; in these cases, contact your Tigercat dealer for the appropriate information.

Tigercat reserves the right to make changes to the machine after this manual release date that may not immediately appear in this manual.

If the machine in question was built after the release date of this manual and there is a discrepancy, call the Tigercat Service Department.

Tigercat reserves the right to change information contained herein at any time without prior notice.
