# Tigercat Simulator

## INTRODUCTION

---

An Operator's Manual is made available by Tigercat to assist the dealer, customer and operator in becoming familiar with the features of the Tigercat Simulator.

The Operator's Manual will assist the operator with the techniques for proper and safe operation of the simulator.

Section 1 in the Operator's Manual contains safety information that must be followed.

The Tigercat Simulator is designed to train new or experienced operators on using the Tigercat Forester forestry equipment through a simulated platform. It also gives instructors the ability to assist with machine-based training through a safe and simulated environment.

The information contained in this manual is current at time of printing. Improvements to the simulator are ongoing and may not be covered. In these cases, contact your Tigercat dealer for the appropriate information.

Tigercat reserves the right to make changes to the simulator after this manual release date that may not immediately appear in this manual.

If the simulator in question was built after the release date of this manual and there is a discrepancy, call Tigercat Service Department.

Tigercat reserves the right to change information contained herein at any time without prior notice.

All product or company names that may be mentioned in this publication are trade names, trademarks or registered trademarks of their respective owners.
