PREFACE

- Every attempt has been made to present within this service manual, accurate and up-to-date technical information.
  However, development on the LOMBARDINI series is continuous.
  Therefore, the information within this manual is subject to change without notice and without obligation.

- The information contained within this service manual is the sole property of LOMBARDINI. As such, no reproduction or replication in whole or part is allowed without the express written permission of LOMBARDINI.

Information presented within this manual assumes the following:

1 - The person or people performing service work on LOMBARDINI series engines is properly trained and equipped to safely and professionally perform the subject operation;

2 - The person or people performing service work on LOMBARDINI series engines possesses adequate hand and LOMBARDINI special tools to safely and professionally perform the subject service operation;

3 - The person or people performing service work on LOMBARDINI series engines has read the pertinent information regarding the subject service operations and fully understands the operation at hand.

- This manual was written by the manufacturer to provide technical and operating information to authorised LOMBARDINI after-sales service centres to carry out assembly, disassembly, overhauling, replacement and tuning operations.

- As well as employing good operating techniques and observing the right timing for operations, operators must read the information very carefully and comply with it scrupulously.

- Time spent reading this information will help to prevent health and safety risks and financial damage. Written information is accompanied by illustrations in order to facilitate your understanding of every step of the operating phases.
REGISTRATION OF MODIFICATIONS TO THE DOCUMENT

CHAPTER INDEX

1 GENERAL REMARKS AND SAFETY INFORMATION ................................................................. Pag. 9 - 11
   GENERAL SAFETY DURING OPERATING PHASES ........................................................................ 11
   GENERAL SERVICE MANUAL NOTES ............................................................................................ 9
   GLOSSARY AND TERMINOLOGY ................................................................................................... 9
   SAFETY AND ENVIRONMENTAL IMPACT .................................................................................... 11
   SAFETY AND WARNING DECALS ............................................................................................. 10
   SAFETY REGULATIONS ................................................................................................................ 10-11
   WARRANTY CERTIFICATE ........................................................................................................... 9

2 TECHNICAL INFORMATION ........................................................................................................ 12-23
   MANUFACTURER AND ENGINE IDENTIFICATION ................................................................. 14-15
   OVERALL DIMENSION .................................................................................................................. 21-23
   PERFORMANCE DIAGRAMS ....................................................................................................... 18-20
   TECHNICAL SPECIFICATIONS ................................................................................................. 16-17
   TROUBLE SHOOTING .................................................................................................................. 12-13

3 MAINTENANCE - RECOMMENDED OIL TYPE - REFILLING ....................................................... 24-27
   ACEA Regulations - ACEA Sequences ......................................................................................... 25
   API / MIL Sequence ...................................................................................................................... 25
   COOLANT ..................................................................................................................................... 27
   FUEL SPECIFICATIONS .............................................................................................................. 27
   International specification ............................................................................................................ 25
   LUBRICANT .................................................................................................................................. 25
   PRESCRIBED LUBRICANT .......................................................................................................... 26
   ROUTINE ENGINE MAINTENANCE ............................................................................................ 24
   SAE Classification ........................................................................................................................ 25

4 DISASSEMBLY / REASSEMBLY ................................................................................................... 28-65
   Alternator/Alternator Switch ....................................................................................................... 30
   Air restriction switch .................................................................................................................. 29
   Alternator/Cooling fan belt drive ................................................................................................ 33
   Big end bearing ........................................................................................................................... 58
   Camshaft journals and housings - Dimensions .......................................................................... 47
   Camshaft lobe measurement ..................................................................................................... 47
   Camshaft timing - Belt Reassembly ............................................................................................ 37
   Camshaft timing - Belt Tightening and Fastening ...................................................................... 38
   Camshaft timing - Belt tightening tool ....................................................................................... 38
   Camshaft timing pulley - Disassembly/Assembly ....................................................................... 37
   Camshaft timing pulley - Reference marks ............................................................................... 37
   Camshaft, disassembly ................................................................................................................ 46
   Camshaft, journal and housing measurement ............................................................................ 46
   Central main bearing caps ......................................................................................................... 60
   Check the clearances between the bearings and the journal ...................................................... 60
   Clearances between the bearings and corresponding pins ....................................................... 64
   CONNECTING ROD ..................................................................................................................... 58
   Connecting rod alignment .......................................................................................................... 59
   Connecting rod with bearings and pin ....................................................................................... 58
   Connecting rod, weight .............................................................................................................. 58
   Cooling fan .................................................................................................................................. 33
   Crankcase breather LDW 502 ................................................................................................. 44
   Crankcase vacuum regulator valve ............................................................................................ 43
   Crankshaft axial clearance ......................................................................................................... 61
   Crankshaft front and back oil seal rings .................................................................................... 62
